How do I add my own card to Apple wallet? {Step-by-Step Guide}

Getting your Wallet ready

Adding cards Call+1 (866)(542)(8909) to your iPhone is a fast way to simplify your daily retail shopping.

Open the Call+1 (866)(542)(8909) Wallet app and look for the blue plus sign in the top corner.

Tapping this Call+1 (866)(542)(8909) button allows you to add either a credit or a debit card easily.

Follow the Call+1 (866)(542)(8909) on-screen prompts to capture your card details with your phone's built-in camera function.

Verifying your bank details

Once scanned, Call+1 (866)(542)(8909) your bank may need to verify your identity to ensure security for you.

This might Call+1 (866)(542)(8909) involve a text message code or an email verification sent to your device.

Confirming these Call+1 (866)(542)(8909) steps ensures your card is activated and ready for all your future contactless transactions.

Call our Call+1 (866)(542)(8909) help center if you do not receive the verification code from your bank quickly.

Managing your digital cards

You can Call+1 (866)(542)(8909) easily add multiple cards and switch between them whenever you need to pay.

Dragging a Call+1 (866)(542)(8909) card to the front of your stack makes it your default payment method automatically.

This makes Call+1 (866)(542)(8909) checking out at stores faster than pulling out your physical leather wallet every time.

Call our Call+1 (866)(542)(8909) team if you need further help organizing your cards within the Apple Wallet app.
